

Australians need a  
**no fault insurance scheme for everyone**  
who has, or acquires, a significant disability

## National Disability Insurance Scheme

People with a disability and their families need a secure future. The struggle for essential services and support is never ending – from early intervention to equipment, respite, accommodation, employment and family support.

**It is time to change the way services for people with a disability are funded in Australia.**

A planned, fully-funded, National Disability Insurance Scheme will underwrite sustained, significant, long-term improvements in meeting the needs of people with a disability and their families.

### Five minutes could change your life ...

Imagine a future where people with a significant or complex disability had free and ready access to all the services and equipment they need.

**Show your support for the National Disability Insurance Scheme and tell the government about the difficulties faced by you and your family.**

Your comments will help shape the National Disability Strategy – a vision of what life could be like for people with a disability and their families in Australia.
