The workshop will cover:

- How the school years can lead to a meaningful life
- A brief history of disability education
- What an inclusive education looks like
- Evidence and support for inclusive education
- How inclusion can look in the classroom
- Education policies and supports that exist within schools
- Advocacy tools and strategies for families

***Hear from a family whose child is learning
in a regular classroom***

Family Advocacy is an independent and impartial advocacy organisation that works with families across NSW to promote and defend the rights and interests of people who have developmental disability*

The organisation is managed and staffed by parents and allies of people with disability who recognise the issues families face and who can assist in strengthening the advocacy of families.

*Developmental disability is a disability that occurs in the developmental period of a person's life (in the period from conception to adulthood) and includes intellectual disability, cerebral palsy, spina bifida, autism, and any combination of physical, intellectual or sensory disability.
