This workshop will cover:

*How the school years can lead to a meaningful life*

*A brief history of disability education*

*How inclusion can look in the classroom*

*Evidence and support for inclusion education*

*Education policies and supports that exist within schools*

***Hear from a family member as they share the story of their child who is learning in the regular classroom***

**Family Advocacy** is an independent and impartial advocacy organisation that works with families across NSW to promote and defend the rights and interests of people who have developmental disability\*

We are managed and staffed by parents and allies of people with disability who recognise the issues families face and who can assist in strengthening the advocacy of families.

*\*Developmental disability is a disability that occurs in the developmental period of a person's life (in the period from conception to adulthood) and includes intellectual disability, cerebral palsy, spina bifida, autism, and any combination of physical, intellectual or sensory disability.*
